Athletic Handbook 2008-2010

PART 4 General Policies:

At the District 10 meeting of August 4, 2004 the following policy was adopted as it relates to entry into DISTRICT 10 TEAM TOURNAMENTS. (Revised January 2008)

The following general policy relates to qualifying for District 10 playoffs in team sports with the exception of team wrestling. Team wrestling is excluded due to the fact the Dual team championships for District 10 must be completed prior the end of the Dual Meet regular season in order to comply with the time line for PIAA inter-district dual meet championships.

1. Region champions will automatically qualify.
2. In mixed classification regions, the highest-ranking team in classification will qualify (if one is not region champion) provided there are two or more teams of the same classification.
3. A single classified team in a region with teams of higher classification can qualify automatically only if that team wins the region championship, but otherwise can qualify as an at large team under criteria established by this policy or pertinent to each sport.
4. A single classified team in a region with teams of lower classification can qualify if that team wins the region championship, or can be considered as an at large team provided it has a .500 record, or as an at large team under other criteria established pertinent to this policy or each sport.

All other teams entry to the District Tournaments shall qualify on an at large basis.

At-large berths:

- All other teams exclusive of automatic qualification (non-regional champions, and tied regional champions who were eliminated as an automatic qualifier by the tie-breaking) will be grouped together and considered for the at-large positions.
- Consideration of the following criteria will be utilized in the assessment process: (not listed in order of importance nor are they intended to be mutually exclusive, nor are they necessarily equal in weight in any given situation)
 - Overall record in respective Region
 - Position in respective league standing.
 - Number of teams of the same classification in region in relation to the number of similar classified teams in other regions.
 - Number of teams in the region of a higher or lower classification that may negatively impact or unduly enhance league record.

Note: In that instance where two or more teams from the same Region are tied in Region Play and are being considered for playoff positions fewer than the number of tied teams the following is followed:

*A. Head to Head among tied teams. If a tie still persists, B. Record against similar classified teams in that region. If a tie still persists, C: overall record.
If more than 2 teams are tied and one team is qualified through the above and another position in the playoffs is available then return to A. Head to Head tie- breaker and begin the process over for the remaining tied teams.*

If no determination is made after consideration of the items above then the following criteria may be utilized in the assessment process: (these items are not listed in order of importance nor are they intended to be mutually exclusive, nor are they necessarily equal in weight in any given situation)

- Head to head play between teams under consideration if they have played each other
- Won/loss record against common opponents
- League and/or Regional Balance
- Overall season record
- Non-Region won-loss record against teams of similar classification

Note: In no case will a team of who finishes below another team of the same classification in the same region be chosen above that team.
